S V S SUJAL

8105115505 svss.officia13@gmail.com Bengaluru India

Summary

Aspiring **Build Engineer** and **Cloud Practitioner**, passionate about creating **simple and efficient processes**. Skilled in **team leadership**, enhancing **customer satisfaction**, and driving results through **effective communication and time management.**

I have successfully managed projects aligned with **Agile values**—prioritizing **collaboration, rapid delivery, and adaptability** to evolving client requirements. My strong interest in **Project Management** allows me to combine technical expertise with **leadership** and **organizational skills** to **plan**, **execute**, and **deliver projects** that meet **business goals** while ensuring **client success. Enthusiastic** about **continuous learning and upgrading skills** to excel in **future endeavors.**

Skills

- Programming Languages: Python, Java, C, R
- Web and API Development: Django, Node.js
- Database Management: MySQL, MongoDB
- Code &Pipelining: GitHub,Jenkins
- Containerization: Docker
- Digital Image Processing: MATLAB
- Content Creation: Content Writing
- Agile: Scrum,XP,Lean,Kanban
- Configuration & Automtion: Ansible
- Power BI

Education

Dayananda Sagar University
Bachelor's Degree in Computing Science & Engineering
2022-2026
CGPA: 7.65

The Aditya Birla Public School, Kovaya(CBSE)
2010-2012

The Aditya Birla Public School, Adityanagar(CBSE)
Class X-72%
2012-2020

The Narayana Institutions(STATE)
Class XII-79%
2020-2022

Languages

Telugu(Fluent)
English(Fluent)
Kannada(Fluent)
Japanese(Intermediate)
Hindi(Fluent)

Certifications

- Linux Shell Programming for Beginners **(Infosys Springboard)**
- Linux Bash Scripting Training **(Infosys Springboard)**
- Linux Shell Scripting Solutions **(Infosys Springboard)**
- Tech A Linux Programming Foundation Certification**(Infosys Springboard)**
- Image Processing with MATLAB **(MATLAB)**
- Image Processing Onramp **(MATLAB)**
- Practical Jenkins **(Infosys Springboard)**
- Scrum Foundation: Scrum in Action **(Infosys Springboard)**
- Product Management Job Simulation EA **(Forage)**
- Project Management Institute Kick-Off **(Agile & Predictive)-Badges**

PROJECTS

- Project 1: Image Classifier – Cat vs.Dog developed an image classification system using classical ML models (SVM, KNN, Decision Tree) with OpenCV for preprocessing, and scikit-learn for training and evaluation
- 1.1: Implemented a GUI-based prediction system with Tkinter, and supported model persistence using Joblib for real-time image classification
- 1.2: Skills/Tech Stack: Python, OpenCV, scikit-learn, Tkinter, Joblib, image preprocessing, and model evaluation
- Project 2: PCB Defect Detection System
- 2.1: Designed a Flask-based web app, integrating MATLAB's advanced image processing to detect defects in printed circuit boards (PCBs)
- 2.2: Executed edge detection, morphological operations, and component analysis using MATLAB scripts, with real-time visualization via Flask
- 2.3: Skills/Tech Stack: Python, Flask, MATLAB (image processing), MATLAB Engine API, web deployment, and quality inspection automation
- Project 3: Informex – Shiny Data Analysis App
- 3.1: Built an interactive Shiny web application in R for uploading and analyzing CSV datasets, with advanced visualizations and summaries
- 3.2: Integrated dynamic plotting (scatter plots, clustering, correlation matrices), and data filtering for intuitive data exploration
- 3.3: Skills/Tech Stack: R, Shiny, ggplot2, tidyverse, corrplot, DT, data visualization, statistical analysis, UI/UX for data tools
- Project 4: E KART – Online Shopping Website
- 4.1: Designed and developed a fully functional e-commerce front-end web application for online shopping using HTML, CSS, and JavaScript
- 4.2: Implemented dynamic product listings, responsive UI, category filters, and cart functionalities to enhance user experience
- 4.3: Skills/Tech Stack: HTML, CSS, JavaScript, DOM manipulation, responsive design, web UI development, UX design

Extra-Curricular

Electronic Arts Product Management Job Simulation on Forage - September 2025

Completed a job simulation where I developed a solid understanding of different KPIs, and selected the most appropriate KPIs for measuring and assessing specific business problems related to a strategy RPG mobile game.
Demonstrated my knowledge of key performance indicators within the video game industry.
Broke down tasks for creating a data-driven video game presentation.

Relative Electives

- Digital Image Processing
- Internet Of Things
- R Programming
- DevOps
- Agile Methodology
- Amazon Web Services(AWS)
