

PROFESSIONAL SUMMARY

Software & Cloud Observability Engineer with production experience in backend pipeline health monitoring, scheduled anomaly detection, and cloud telemetry. Proficient in Python, SQL (PostgreSQL, MySQL), AWS CloudWatch, and CI/CD pipelines with Docker and Jenkins. Proven track record of engineering automated job-tracking diagnostic systems that eliminate pipeline downtime across enterprise healthcare workflows.

TECHNICAL SKILLS

Cloud & Observability:	AWS (CloudWatch Logs, Metrics, Alarms, EC2), Linux/Unix System Administration, Telemetry Aggregation
Languages & Scripting:	Python, SQL (PostgreSQL, MySQL), Bash / Shell Scripting, Java, C, R, JavaScript
DevOps & Infrastructure:	Docker, Jenkins, Git, GitHub Actions, Ansible, Power BI, Nginx, CI/CD Automation
Frameworks & Databases:	Django, Flask, FastAPI, React, Node.js, PostgreSQL, MySQL, MongoDB, RESTful APIs
AI, Vision & Core Methods:	Anomaly Detection Engines, YOLOv8, OpenCV, Groq LLM API, MobileNetV2, Agile/Scrum

PRODUCTION ENGINEERING EXPERIENCE

[Cloud & Observability Pipelines]

Exdion Health (Exdion Solutions) — Technology Intern Feb 2026 – Present | Bengaluru, India

- ExdionCode (AI Medical Coding & Pipeline Observability Platform):** Engineered automated data monitoring pipelines integrating **MySQL** database status and **AWS CloudWatch Logs** to track real-time patient visit batch workflows and data throughput.
- Anomaly Detection Engine:** Developed a scheduled monitoring service executing automated pipeline health checks **every 10 minutes** across processing stages to proactively detect, flag, and alert on stalled or hung batch jobs.
- Stuck Job Trends Analytics:** Built a diagnostic sub-module capturing and storing historical pipeline failure timelines, enabling trend visualization to preempt recurrent bottleneck patterns and accelerate incident response.
- CASH (Healthcare Claims Assurance Service):** Designed high-reliability backend data ingestion pipelines and telemetry utilizing **PostgreSQL** and **AWS CloudWatch** for high-volume financial transaction verification and auditability.

FEATURED TECHNICAL PROJECTS

[Grouped: Cloud, Observability & Computer Vision]

AI Cyberpunk Cloud & DevOps Platform [\(Live: sujalsvs.in\)](#) React • Django • Groq AI • Docker • CI/CD • AWS

- Architected a personal cloud portfolio integrating Groq LLM AI chat endpoints, automated GitHub Actions CI/CD deployment pipelines, telemetry analytics dashboard, and Nginx reverse proxy architecture with Android webview deployment support.

Automated Pothole Detection & Road Hazard Assessment (Final Year Capstone) Python • OpenCV • Computer Vision • CNN / ML • Flask

- Developed an automated real-time computer vision system to detect road surface distress and potholes from camera feeds. Implemented adaptive thresholding, contour segmentation, and classification models to generate automated geo-tagged road hazard logs.

Aerial Object Detection & Airspace Surveillance System Python • YOLOv8 • MobileNetV2 (99% Acc) • Transfer Learning

- Engineered a deep learning system classifying birds vs. drones in aerial video. Implemented MobileNetV2 transfer learning alongside YOLOv8 for real-time bounding-box object localization in surveillance video feeds.

PCB Defect Detection & Visual Quality Inspection System Python • Flask • MATLAB Engine API • OpenCV

- Built an automated visual inspection web tool integrating MATLAB image processing via MATLAB Engine API with a Flask backend to execute edge detection, morphological filtering, and automated anomaly reporting.

EDUCATION

 B.Tech in CSE Dayananda Sagar University 2022 – Oct 2026 (Grad: Oct 28) CGPA: 7.85	 Class XII (State) The Narayana Institutions 2020 – 2022 (Bengaluru) 79%	 Class X (CBSE) Aditya Birla Public School 2012 – 2020 (Adityanagar) 72%

VERIFIED CERTIFICATIONS & GLOBAL HONORS

- ★ **Galactic Problem Solver** (NASA Space Apps Challenge 2024 / ISRO)
 - ✓ **Practical Jenkins CI/CD Certification** (Infosys Springboard)
 - ✓ **MATLAB Onramp (100% Verified)** (MathWorks Training)
- ✓ **TechA Linux Foundation Certification** (Infosys Springboard)
 - ✓ **Scrum Foundation: Scrum in Action** (Infosys Springboard)
 - ✓ **Product Management Simulation** (Electronic Arts / Forage)
